Slide animation

Sometimes you want to hide later text/elements of a particular slide to keep the focus on the early part of the slide.

By having the text shaded out (and not completely missing), your audience can see that you do have some more information that will come shortly.

Success and failure is and walkers. When you experience the enjoyment of victory, success and failure in the far away from you hide the corner, or wait in the waiting outside, you consider it.

mathematical

In common paragraphs: $\frac{\partial u}{\partial t} = h^2 \left(\frac{\partial^2 u}{\partial x^2} + \frac{\partial^2 u}{\partial y^2} + \frac{\partial^2 u}{\partial z^2} \right)$

numbered equations:

$$\int_{x^2+y^2 \leq R^2} f(x, y) dx dy = \int_{\theta=0}^{2\pi} \int_{r=0}^R f(r \cos \theta, r \sin \theta) r dr d\theta \quad (1)$$

normal equations:

$$\int_{x^2+y^2 \leq R^2} f(x, y) dx dy = \int_{\theta=0}^{2\pi} \int_{r=0}^R f(r \cos \theta, r \sin \theta) r dr d\theta$$

Regular Block

Text goes here

Alert Block

Stands out a bit more

Example Block

Also stands out $y = \beta x + \varepsilon$

A large, faint watermark of the Fudan University logo is centered in the background. The logo is circular, with the English text 'FUDAN UNIVERSITY' around the top and '1905' at the bottom. In the center is a stylized Chinese character '復旦' (Fudan).

THANK YOU!
